

**Erasmus Experience Report – Maryam M.**  
***City University of Applied Sciences Bremen, Germany***

My Erasmus experience in Split was truly enriching and unforgettable. Studying at the University of Split gave me the opportunity to gain new academic perspectives while further developing my intercultural and language skills. The international environment and the welcoming atmosphere made it easy to connect with other students from different countries.

I especially appreciated the beautiful location of Split. The unique combination of the sea, mountains, and vibrant student life created a wonderful balance between academic responsibilities and leisure time. Living in such a scenic and lively city made my stay even more enjoyable.

The Erasmus Student Network (ESN) played an important role in my experience. ESN regularly organized social events, trips, and cultural activities, which made it very easy to meet new people and build strong connections. Through these events and excursions, I was able to explore the surrounding region, visit national parks and nearby islands, and experience Croatian culture more closely. These activities helped me form meaningful friendships that I truly value.

Overall, my time in Split allowed me not only to grow academically but also personally. I built valuable friendships, gained new experiences, and learned to adapt to a different academic and cultural environment. I am very grateful for this opportunity and would highly recommend Split as an Erasmus destination.
