

Erasmus testimonial – Tom Williard - University of Applied Sciences, Kaiserslautern, Germany

My Erasmus semester abroad in Split was an incredible opportunity and experience that exceeded all my expectations. I've been to Croatia many times before, but I've never been in this beautiful city in Dalmatia. It has a lot to offer when it comes to sightseeing and other activities in and around Split and is one of the loveliest places I've ever been. The people are very nice and friendly, and they really follow their POMALO lifestyle. With the fantastic ESN Team here in Split we had many trips around whole southern Croatia that you'll never forget. From the Krka Waterfalls, Plitvice Lakes, cities like Zadar or Sibenik and weekly parties and events it felt like a semester on vacation. And don't forget to visit the stunning islands in front of Split! And please go on the CEE Festival – it's worth it 😊. When you get all the organisational stuff done and are lucky finding a good apartment you'll definitely enjoy your stay!

You'll get to meet so many open and friendly (party-) people that like to meet others and you'll definitely find a lot of friends you'll see so often that you become like a family. There was no day without someone wanting to go for a coffee or a beach party under the week :D

The university itself is divided into different Departments and Faculties. I studied at the Department of Professional Studies and had two classes at the Faculty of Electrical Engineering (FESB). The professors and people responsible for Erasmus students are very nice, helpful and relaxed and it never was a burden to do something as they gave us a lot of free time while still learning something. They really cared about making our time in Split as pleasant as possible.

I can only recommend a semester abroad to everyone. I never was that outgoing before, but this experience changes people and gifts you unforgettable memories and new friends from around the world!
