

SUSTAINABLE DEVELOPMENT GOALS

The Sustainable Innovation Boot camp (15 March – 29 April 2021) is a collaboration between Hogeschool van Amsterdam (HvA), The Netherlands, the Hochschule Kempten, Germany and the St. Petersburg University, Russia. Weekly classes on Monday and Thursday from 18.00 till 20.00 PM.

WHAT TO EXPECT?

The online international Sustainable Innovation Boot Camp applies design thinking and innovation practices in the field of entrepreneurship with emphasis on entrepreneurial ideas to support sustainable development goals. Participants on this 6-week course will have the unique opportunity to explore sustainable innovation and business-related models. To collaborate creatively new technologies are used and design thinking techniques are applied, leading to entrepreneurial solutions for specific problems or challenges the participants would like to help solve on an international scale.

Distinguished lecturers from different countries will tutor and coach international students in an intensive online study program. Participating students will earn 3 ECTS.

The Boot Camp virtual learning process is a combination of online tutoring, self study, coaching and practical assignments. The assignments allow individuals to evolve their own thinking through co-creation with others, as well as develop their own capabilities and self-reflection.

WHO CAN TAKE PART?

The Sustainable Innovation Boot camp is open to B.A. students from all subject areas.
